

drawingObject

```
graph BT; point --> drawingObject
```

A UML class diagram illustrating a generalization relationship. At the top is a white rectangular box with a thin gray border labeled 'drawingObject'. Below it is a gray rectangular box with a thick black border labeled 'point'. A solid blue arrow points vertically from the top center of the 'point' box to the bottom center of the 'drawingObject' box, indicating that 'point' is a specialization of 'drawingObject'.
